## Writing Performance Reviews Facilitator Kit

### How does it work?

Your trainer, manager, or facilitator delivers a live training program with the *Writing Performance Reviews* workbook (shown on the left) and its separate leader's guide (shown on the right, and below).

The leader's guide includes color coding and text icons to lead you through the training. The guide carries you through the workbook's content and exercises, and provides a script to lead discussions.

### What's included?

The costs cover *Writing Performance Reviews* workbooks for each program participant, the leader's guide, companion PowerPoint slides, and shipping.

### Can I customize the training?

Every organization, every department, and every person is different. You can customize the program to address the particular needs of your audience. You can also add your company's logo and adapt the slides with your own text.

### What are the learning objectives?

*Writing Performance Reviews* explains how to write performance objectives, reviews, appraisals, and other performance documentation that is clear, descriptive, objective, and acceptable in today's workplace. The book includes examples, questions, and activities to help you learn on your own, with your team, or with others in your organization.

### Who can lead the program?

You don't need to be an expert in writing or communications skills to lead a successful program. The leader's guide provides all the content and activities you'll need to conduct a successful *Writing Performance Reviews* training.

**What are the delivery options?** The setting can be a classroom, a small study group, or individual coaching. You choose the delivery option best suited to your organization's needs, and the leader's guide carries you through your training.

**Write It Well** is a training, consulting, and publishing firm that helps busy professionals improve all aspects of their business writing. We can customize all our training programs for on-site, online, or e-learning delivery.
